

Making Guide

Doodling: making ink and marks

To make turmeric ink:

- 1 tablespoon turmeric
- 3 tablespoons warm water
- ½ teaspoon vinegar
- ½ teaspoon salt

1. Mix your turmeric and warm water together. If it's too thick for your liking, add more water.

2. Mix half a teaspoon of vinegar in.

3. Mix half a teaspoon of salt in.

Store your ink in a jar and label!

Other ink ideas:

- 1 tablespoon cocoa powder / coffee + 3 tablespoons of warm water + step 2 and 3 above.
- a used tea bag
- other colourful spices like cinammon

To make berry ink:

- a handful of berries (frozen/ fresh)
- ½ teaspoon vinegar
- ½ teaspoon salt

1. Defrost your berries in the microwave or leave them out a couple of hours before if you are using from frozen.

2. Pop a sieve on top of your bowl. Smush the berries into the sieve so the juices run into the bowl.

3. Mix half a teaspoon of vinegar in.

4. Mix half a teaspoon of salt in.

Mark making!

It's really up to you what kind of marking tool you make, we recommend starting with ...

- a rubber glove
- objects you think have good textures (below for ideas!)
- elastic bands / tape

Play around with combinations of textures to use your ink with!

Some mark making objects you might find at home.
